Skilled in building responsive websites, crafting engaging video content, and merging analytical thinking with visual storytelling. Passionate about creating smart, user-focused digital experiences at the intersection of technology, design, and media.

Education

EGS Pillay Polytechnic College   2021 – 2023
Diploma in Electrical & Electronics Engineering
Grade-81%

EGS Pillay Polytechnic College   2024 – 2027
Bachelor of Technology in Artificial Intelligence and Data

Key Specialization

- Web development using HTML, CSS, JavaScript
- UI/UX design and responsive layouts
- Video editing and motion design (Reels, promos, branded content)
- Data analysis, machine learning basics

Certifications

Practical SQL: Query & Manage Databases -Udemy

– Gained hands-on experience in writing efficient SQL queries, managing relational databases, and real-world data handling

Skills

Languages	Python, JavaScript
Front-End	HTML, CSS
Deployment	Flask, git hub pages
Analytics Tools	MySQL, Power BI,Excel
Video Editing	Adobe Premiere Pro, After Effects, CapCut
Frameworks	Pandas, NumPy, Matplotlib, Seaborn
Graphic Design	Canva, Figma, Photoshop

Languages

Tamil	99%
English	70%
Arabic	30%

Professional Interests

• Building impactful, responsive websites using HTML, CSS, and JavaScript
• Creating visually compelling digital content using Premiere Pro and Photoshop
• Merging creative editing with storytelling for social media reels and branding
• Exploring AI tools to enhance productivity, media automation, and smart assistants
• Passionate about UI/UX, minimal design, and emotionally connecting content

Areas of Focus

Web Development
Building responsive and modern websites using HTML, CSS, and JavaScript with clean UI and user-friendly layouts.

Content Creation & Editing
Designing social media reels, promotional content, and storytelling edits using Premiere Pro, CapCut, and After Effects.

Visual Design
Passionate about minimal, aesthetic web and poster design using Canva, Photoshop, and Figma.

AI for Creativity
Exploring how tools like N8N, LangChain, and ElevenLabs can be used in creative workflows and automation.
